

Anurag Saha

Kolkata, West Bengal, India

+91-8371009613 | sahaanurag415@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Software Development Engineer with hands-on experience in full-stack development, REST API design, and cloud deployment using the MERN stack. Proficient in Java, JavaScript, and Python with a strong foundation in DSA, OOP, DBMS, OS, and System Design. Experienced in building production-grade applications with Docker, Kubernetes, CI/CD pipelines, and Firebase on Google Cloud Platform.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), Python, SQL **Frontend:** React.js, HTML5, CSS3, Responsive Web Design
Backend: Node.js, Express.js, REST API Design, Firebase Cloud Functions, Microservices
Databases: MongoDB, Firebase Firestore, SQL, NoSQL **Tools:** Git, GitHub, Postman, VS Code
DevOps & Cloud: Docker, Kubernetes, GitHub Actions (CI/CD), Firebase Hosting, Google Cloud Platform
Core Concepts: Data Structures & Algorithms, OOP, DBMS, OS, System Design

PROFESSIONAL EXPERIENCE

Associate System Engineer – Software Development Intern Jul 2025 – Aug 2025

Univolve Consulting, Kolkata (Hybrid)

- Developed and integrated RESTful APIs using Node.js and Express.js for production web applications, reducing API response latency by 20% through query optimization and middleware improvements
- Designed and optimized backend system workflows and database queries, contributing to a 15% improvement in overall application performance and throughput
- Diagnosed and resolved critical software bugs across key application modules, improving system reliability; gained hands-on DevOps experience with Docker containerization, CI/CD pipelines, and production monitoring

PROJECTS

Tanushree Collection – Production E-Commerce Platform | *Firebase, Node.js, Razorpay, GCP, Brevo* | [Live Site](#) · [GitHub](#) Jun 2026

- Architected and deployed a production-grade e-commerce platform on GCP (Firebase Hosting) with OTP-based email verification via Firebase Auth, role-based admin dashboard, and dynamic product and order management
- Engineered a tamper-proof Razorpay payment pipeline: Cloud Functions (Node.js 20) fetch live Firestore prices, compute state-wise weight-slab shipping, create orders server-side, and verify HMAC-SHA256 signatures — frontend never controls amounts
- Implemented atomic Firestore transactions for concurrent order safety — stock validated and deducted in a single transaction; conflict orders auto-flagged with `refundRequired: true` triggering admin-initiated Razorpay refund flow
- Built full order lifecycle: COD and online payment flows, webhook-driven refund status updates (`refund.processed/refund.failed`), and idempotent transactional emails (confirmed, shipped, delivered, refunded) via Brevo REST API
- Implemented SEO pipeline (canonical URLs, Open Graph, JSON-LD, XML sitemap, Search Console); configured custom domain with HTTPS enforcement and Firestore Security Rules for production data protection

Laxmifiya – Full-Stack Stock Trading Platform | *MongoDB, Express.js, React.js, Node.js, JWT* | [Frontend](#) · [Backend](#) · [Dashboard](#) Jun 2025

- Engineered a full-stack stock trading web application with JWT-based user authentication, real-time order placement, and portfolio tracking using the MERN stack (MongoDB, Express.js, React.js, Node.js)
- Architected and implemented RESTful APIs with optimized MongoDB aggregation queries, achieving a 30% improvement in backend response time and overall system throughput
- Built a fully responsive, component-driven React.js frontend with modular architecture, ensuring seamless cross-device user experience and improved page load performance

EDUCATION

Adamas University <i>Bachelor of Technology (B.Tech) in Computer Science and Engineering</i>	Kolkata, West Bengal 2022 – 2026
A.C. Institution <i>Higher Secondary Certificate (HSC) – Science Stream</i> 89%	Malda, West Bengal 2020 – 2022

CERTIFICATIONS & ACHIEVEMENTS

McKinsey Forward Program – Selected Participant, McKinsey.org Global Career & Leadership Development Program 2026
Angular Stack Certification of Achievement – Infosys | Full-stack Angular development, TypeScript
